Wednesday 27 June 2018							
9am - Registrations							
9.45am - Welcome by Professor John Hosking - Dean of Science							
10.15am - TBC							
10.45am Morning Tea							
11.15am - ResBaz Sessions							
303.G13	303.G14	303.G15	303.G16	302.G20			
Utilising software for better research	What tools are helpful for me in bioinformatics?	Data Management - sharing, publishing and archiving	Room not available	Research compute facilities at the University of Auckland – part I			
		12.15 pm Lunch					
	1.15pm	n - Assess your digital skills (a	activity)				
	2.00pm - Key story by	Harkanwal Singh - Founder,	Data elements studio				
2.30pm - ResBaz Sessions							
303.G13	303.G14	303.G15	303.G16	302.G20			
Linux - An introduction to the commandline	Introduction to user experience design - part I	Data and narratives - part I	Room not available	Research compute facilities at the University of Auckland - part II			
	3.30pm Afternoon Tea						
4.00pm - ResBaz Sessions							
303.G13	303.G14	303.G15	303.G16	302.G20			
Using integrated data infrastructure and research tools	Introduction to user experience design - part II	Data and narratives - part	Room not available				

Thursday 28 June 2018								
9am - Key Story by Dr. Alys Clark								
9.30am - ResBaz sessions								
303.G13	303.G14	303.G15	303.G16					
Introduction to R – part I	IT security and awareness	Reproducible research in Genomics - part I	NeCTAR research cloud - Hands on fundamental skills workshop - part I					
10.30am - Morning Tea								
11am - ResBaz sessions								
303.G13	303.G14	303.G15	303.G16					
Introduction to R - part II	Research commercialisation and intellectual property	Reproducible research in Genomics - part II	NeCTAR research cloud - Hands on fundamental skills workshop - part II					
12pm - Lunch								
	1.30pm - Key St	tory by Associate professor N	Inako O'Hagan					
2pm - ResBaz sessions								
303.G13	303.G14	303.G15	303.G16					
LaTeX - part I	Tools for survey design – part I	Publishing and copyright - part I	Room available for breakout sessions/discussions					
3pm - Afternoon tea								
3.30pm - ResBaz sessions								
303.G13	303.G14	303.G15	303.G16					
Latex - part II	Tools for survey design – part II	Publishing and copyright - part II	Qualitative data analysis with Nvivo					

Friday 29 June 2018							
9am - Welcome and Digital Strategy by Stephen Whiteside - Chief digital officer, Auckland University							
9.10am - Key Story by Professor Mark Billinghurst							
9.40am - ResBaz sessions							
303.G13	303.G14	303.G15	303.G16				
Introduction to machine learning	AR/VR development with Unity	Research data management - planning organising and storing	Science communication strategies for researchers - TBC				
	10.30am - Morning Tea						
		11am - ResBaz sessions					
303.G13	303.G14	303.G15	303.G16				
Version control and collaboration tools - Introduction to Git and GitHub	Geneious Q and A by Dr. Moreland Gibbs, Geneious applications scientist	Writing a data management plan	TBC				
Gittiab	Scientist	12pm - Lunch					
	1.00pm Open Data and Figshare by Laura Armstrong						
		1.30pm - ResBaz sessions					
303.G13	303.G14	303.G15	303.G16				
Introduction to Jupyter notebooks	Drones in research	Tidy Data and introduction to Open Refine for data cleaning	TBC				
2.30pm - Assess your digital skills (activity and swag to be won!)							
3pm - Afternoon Tea							
3.30pm - TBC
